### EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Todd Spalding on 11/10/04.

2. The application has been amended as follows:

IN THE CLAIMS:

Claims 26-169 and 178-205 have been cancelled.

3. Claims 170 and 173-177 have been allowed.

4. The following is an examiner's statement of reasons for allowance:

Claimed polynucleotide disclosed in SEQ ID NO 13, a vector comprising the polynucleotide and an isolated host cell comprising the vector are free of the prior art of record because the art of record does not teach the polynucleotide. Additionally, applicants article in the PNAS 96:8070-8073 that TSAP-21 expression is differentially expressed in p53, P21 and SIAH-1 dependent regulation in malignant phenotype and/or activation of apoptosis is persuasive to associate the claimed polynucleotide with these conditions.

5. Examiner's Comments:

A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after final rejection. Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, the finality of the previous Office action has been withdrawn pursuant to 37 CFR 1.114. Applicant's submission filed on 9/2/04 has been entered.
